

Summer School

AENEAS, EPoSS, INSIDE

Create impact
by collaborative
Innovation!

For an autonomous and
sustainable Europe

2022

24-25 November, Amsterdam

Organised by:
AENEAS, EPoSS & Inside

Goals

- Target an international class of 40 students coming from the last year of undergraduate program (programs in EE or CS + other relevant adjacent fields, e.g. industrial engineering, physics, etc.)
- Inspiring the young generation to become professionals in the ECS ecosystem
- Expose the class to a series of inspiring lectures from industrial and RTO's professionals who will cover the whole spectrum of the ECS value chain, engaged by the three associations

How

- Length 4 days
 - Technology
 - IC Design
 - Software
 - Integration and Systems
- First edition: End of August
- Location: <https://www.ceub.it/?lang=en>
- Selection of participants:
 - based on academic records / motivation letter / recommendation letters
 - Taking into account geographical and gender balance
- Universities to be reached:
 - 3A SC members + SINANO members
 - Other 3A members (via chamber B representatives)
